About Us

We have a well equipped and a fully integrated manufacturing unit which is located in Chatrapatti near by Rajapalayam (TamilNadu) established in 2005. In our manufacturing unit, we have all the facilities like quality testing, research & development, storage and packaging for effective and uninterrupted production of our surgical dressings. The machinery, professional and skilled workers helps us to manufacture and supply to meet the demands of our clients.

We supply innovative, safe, reliable and quality medical products to our clients to enable them to focus on patient care. Our company's functioning has been well managed and guided by highly qualified team of professionals who consistently work hard to produce the best. The diligent efforts of our workforce help us in delivering the right product to the market. We obtained our raw material from reliable vendors who are all well known for their consistent quality and match our high standards.

Our Goal

The prime aim of our organization is to deliver the products with high quality in reasonable rate in the right time without compromising the safety standards laid by Government Health Organization. We heavily depend on regular updating of technique to improve performance exponentially.
